

## A&S Fersa Bearings S.A.

Zaragoza, Spain - - Feb 01 2010: A&S Fersa Bearings S.A., manufacturer of bearings since 1968, has appointed Ringball Corporation as their Canadian Master Distributor. This exclusive agreement includes the complete product line of the A&S Fersa Bearings.

With five Ringball branches and their network of authorized distributors from coast to coast, the partnership provides local inventory, lower shipping costs and faster shipping times.

"Like A&S Fersa Bearings, Ringball Corporation is fully committed to providing its customers with the best possible service," says Rami Chirila, A&S Fersa's Sales Manager

"We know that Ringball has the nationwide resources and expertise to serve users of our product line with the highest of standards."

Incorporated in 1953, Ringball entered the Bearing and Power Transmission field by representing predominantly European manufacturers of bearings and roller chains. Having since expanded into a wide range of other Power Transmission products, Ringball has developed close ties with reputable manufacturers around the Globe and has today reached a position of being able to offer a truly international product range to its customer base.

"Ringball Corporation is pleased to have been appointed the Master Distributor in Canada for A&S Fersa, as A&S Fersa is recognized as an excellent manufacturer of bearings that exceeds the needs of their customers' expectations in the bearings market worldwide." says Bill Strathearn, VP and General Manager at Ringball Corporation. "Their product line will further enhance Ringball's ability to service distributors across Canada."
